Technical Skills

HTML, CSS3, JavaScript, jQuery, Bootstrap, NodeJS, MySQL, MongoDB, Express, HandlebarsJS, ReactJS, GitHub, Heroku

PROJECTS

cribSmack - cribsmack.herokuapp.com/ | github.com/Rzavala414/Project3
cribSmack is a companion app for the timeless game of cribbage. cribSmack's goal is to help bring in a new audience of users together to play either competitively or for fun. Track live games and stats in real time with no need for a board! cribSmack a new twist on an old favorite.
Technology used: Node.JS, Express, React.JS, MongoDB, Mongoose, Bcrypt, Express, Express-Sessions, Axios, Material-UI, CSS

GoGang- go-gang.herokuapp.com/ | github.com/ronak0624/Project-2
GoGang was created with the intent of bringing individuals together that enjoy going to events at the very last minute. Simply login to your account and see an active feed of live events to join or post your own for others to join in. Once you find a group of three or more you are entered into your own private chat and can organize meeting zones or any specifics the group would like to add
Technology used: Node.JS, Express, MySQL, Sequelize, Bcrypt, HTML, CSS, Bootstrap, jQuery, Handlebars

Explor - rmjones112.github.io/Project1/ | github.com/rmjones112/Project1
Explor was created with one goal in mind, to reduce the stress of travelers when preparing for a big trip. With Explor you can relax just a bit more and let us do some of the heavy lifting. Simply input your destination along with travel dates, and once we receive your information, we compile a list of top restaurants, popular attractions, weather, and a tailored checklist for your vacation. In the future we plan on expanding our application by adding the ability to choose flights and housing.
Technology used: HTML, CSS, jQuery, Ajax, Particle.js, Bootstrap, Yelp API, Weather API, Eventbrite API

WORK EXPERIENCE

Office Administrative Assistant   2017-2019   *Skagit Valley College, Mount Vernon, WA*

Handled student's questions/concerns in a timely manner, categorizing and indexing complex filing system, marketing outreach to solicit potential new students, assisting students with changes to their schedules or account information

Package Handler   2015-2016   *UPS, Burlington, WA*

Used hand-held scanners and physical logs to accurately track packages, sorted packages according to destination, sealed and loaded packages into correct trucks

EDUCATION

Certification in Full-Stack Web Development: Computer Science   2019-2019   *University of Washington - Seattle, WA*

Associates in Science Transfer: Computer Engineering   2015 - 2017   *Skagit Valley College - Mount Vernon, WA*
